

Asters KICKIN™

A series of hybrid perennial Asters with a very bushy, compact habit. Covered with semi-double flowers in a wide range of vibrant colors for many weeks in late summer to fall. KICKIN™ Asters' naturally compact habit makes them suitable for quart pots as well as for gallons and bigger containers, and they do not require any growth retardant treatments. Excellent post-harvest quality at retail due to the multiple layers of ray florets. Grow in 5-8" pots. Hardy Zones 5-11. Peak availability weeks 22-35.

KICKIN CARMINE RED ^{PPAF}

Vibrant carmine-red flowers with bright-yellow centers.

KICKIN LAVENDER ^{PPAF}
