# Blooming Aloes™

*From left: Blooming Aloe Always Red, Erik the Red, Fairy Pink, Moonglow, Super Red, and Topaz.*

## ALOE ALWAYS RED<sup>PPAF</sup>

An incredible long-flowering hybrid Aloe – one of the most prolific bloomers. This medium-sized hybrid continues pushing up spears of shiny red blooms during the summer, autumn and winter months, showing color up to 10 months of the year. Suitable for mass planting or containers.

- Grows to approximately 14" tall x 14" wide
- Slowly forms a stem
- Full sun to part-shade
- Grow in 6" or larger pots
- Moderate frost tolerance and high rain tolerance
- Prefers occasional watering in summer

## ALOE ERIK THE RED<sup>PPAF</sup>

A tree-type Aloe that produces amazingly long-lasting spires of blood red on tall stems in winter. Prominent but soft spines on its long, large leaves make it a stunning specimen both in and out of flower.

- Grows to 6' tall x 6' wide
- Single stemmed
- Grow in 1-gallon or larger pots
- Full sun
- Moderate frost tolerance

## ALOE FAIRY PINK<sup>PPAF</sup>

Numerous dainty white flowers with a pink cast appear in late summer/early autumn above the delicate fleshy green leaves of this small and beautiful hybrid.

- Best grown as a pot specimen but can be planted in beds if the location is protected and the soil well-draining
- Grows to approximately 12" tall x 12" wide, clumping
- Grow in 6" or larger pots
- Part-shade but can take full sun if protected
- Low frost tolerance
- Prefers occasional watering in summer

## ALOE MOONGLOW<sup>PPAF</sup>

This superb variety delivers a multitude of magnificent compact pale-yellow flower spikes starting in midwinter on a medium-sized plant at a young age. Once mature, this variety produces more flowers on a plant than any we've seen.

- Grows to approximately 30" tall x 20" wide
- Single stem growth
- Full sun
- Grow in 1-gallon or larger pots
- Moderate frost tolerance and high rain tolerance
- Prefers occasional watering in summer

## ALOE SUPER RED<sup>PPAF</sup>

The flower performance is truly spectacular, with masses of red flowers from late summer to winter from a very young age. The grey-green plant starts growing a stem from an early age and the rosette divides as the plant ages, allowing an even greater flower display. Suitable as a feature plant in the garden, in a large pot or in tough landscaping conditions.

- Prefers occasional watering in summer
- Grow in 1-gallon or larger pots
- Full sun
- Moderate frost tolerance and high rain tolerance

## ALOE TOPAZ<sup>PPAF</sup>

Beautiful long-lasting pink-orange blooms, from mid-summer to early winter, complement the elegant grass-like leaves of this magnificent plant.

- Excellent specimen for borders, mass planting and pots
- Grows to approximately 15" tall x 12" wide, clumping
- Grow in 6" or larger pots
- Full sun to part-shade
- Light frost tolerance and high rain tolerance
- Prefers regular watering in summer
