POTENTIAL. STRAP YOURSELF IN—THE NEXT

GENERATION OF HIGH-POWERED PROGRAMS

IS READY TO TAKE YOU **AWAY.**

This innovative breeding program from South Africa offers some of the most exciting and garden-worthy plants to hit the market in years. Selection focused on long flowering periods, interesting foliage and superior garden performance has created truly fantastic plants. Great in commercial, residential and municipal landscapes, they also thrive in containers. Fast growing and versatile. Hardy Zones 9-11. Limited availability through Fall 2011. Grown from Tissue Culture.

ALOE ERIK THE RED ^{PPAF}

A tree-type Aloe that produces amazingly long-lasting spires of blood red on tall stems in **winter**. Prominent but soft spines on its long, large leaves make it a stunning specimen both in and out of flower.

- Grows to 6' tall x 6' wide
- Single stemmed
- Grow in 1 gallon or larger pots
- Full sun
- Moderate frost tolerance

ALOE SUPER RED ^{PPAF}

The flower performance is truly spectacular, with masses of red flowers from **late summer** to **winter** from a very young age. The grey-green plant starts growing a stem from an early age and the rosette divides as the plant ages, allowing an even greater flower display. Suitable as a feature plant in the garden, in a large pot or in tough landscaping conditions.

- Moderate frost tolerance
- Prefers occasional summer watering
- Grow in 1 gallon or larger pots
- Full sun
- High rain tolerance

ALOE TOPAZ ^{PPAF}

Beautiful long-lasting pink-orange blooms, from **mid summer** to **early winter**, complement the elegant grass-like leaves of this magnificent plant.

- Excellent specimen for borders, mass planting and pots
- Grows to approximately 15" tall x 12" wide
- Clumping
- Grow in 6" or larger pots
- Full sun to semi-shade
- Light frost tolerant
- High rain tolerance
- Prefers regular watering in summer

ALOE FAIRY PINK ^{PPAF}

Numerous dainty white flowers with a pink cast appear in **late summer/early autumn** above the delicate fleshy green leaves of this small and beautiful hybrid.

- Best grown as a pot specimen but can be planted in beds if the location is protected and the soil well-draining
- Grows to approximately 12" tall x 12" wide
- Clumping
- Grow in 6" or larger pots
- Part-shade but can take full sun if protected
- Low frost tolerance
- Benefits from occasional watering in summer

ALOE ALWAYS RED ^{PPAF}

An incredible long-flowering hybrid aloe—one of the most prolific bloomers. This medium-sized hybrid continues pushing up spears of shiny red blooms during the **summer, autumn** and **winter** months, showing color up to 10 months of the year. Suitable for mass plantings or containers.

- Grows to approximately 14" tall x 14" wide
- Slowly forms a single stem
- Full sun to part-shade
- Grow in 6" or larger pots
- Moderate frost tolerance
- High rain tolerance
- Prefers occasional watering in summer

ALOE MOONGLOW ^{PPAF}

This superb variety delivers a multitude of magnificent compact pale-yellow flower spikes starting in **mid-winter** on a medium-sized plant at a young age. Once mature, this variety produces more flowers on a single plant than any we've seen.

- Grows to approximately 30" tall x 20" wide
- Single stem growth
- Full sun
- Grow in 1 gallon or larger pots
- Moderate frost tolerance
- High rain tolerance
- Prefers occasional watering in summer

ALOE Erik the Red ^{PPAF}

ALOE Super Red ^{PPAF}

ALOE Topaz ^{PPAF}

ALOE Fairy Pink ^{PPAF}

ALOE Moonglow ^{PPAF}

plug in to [profitability]

From varieties to make your (production) life easier, to plants that will make your customers say “wow,” we’ve brought you the best new varieties and programs to pump up the volume on your bottom line.

Flirt

This exciting early spring bloomer has stunning silver foliage with beautiful white flowers. A superior new selection with much larger, extremely long-lasting flowers, it can be grown with Erysimum, planted in late summer or fall and grown cool over winter. Its stunning silver leaves remain beautiful all summer, even after the early spring flowering season. PGR when flower buds are the size of a pea with Bonzai or B-Nine. Peak availability weeks 25-5.

LEUCANTHEMUM HOSMARIENSE Flirt

LEUCANTHEMUM HOSMARIENSE FLIRT ^{PPAF}

Lucky Lantern™ Abutilon

This fantastic new series has been selected for its compact, branching habit and outward facing flowers. Very easy to grow and a quick crop under high-density conditions, the plants perform equally well in full-sun or part-shade conditions. Great in mixed containers or baskets. Peak availability weeks 6-45.

ABUTILON LUCKY LANTERN TANGERINE ^{PPAF}

ABUTILON LUCKY LANTERN WHITE ^{PPAF}

ACALYPHA TIKI TROPICAL TYPHOON

ACALYPHA TIKI JUNGLE CLOAK

ACALYPHA TIKI Lava Flow

ACALYPHA TIKI Tropical Typhoon

ACALYPHA TIKI Jungle Cloak

Marshmallow™ Diascia

An exciting new series of compact, early-flowering Diascia varieties bred for uniform pot performance and high-density production. Excellent branching habit with a profusion of large flowers on short flower spikes all season long. Series has good heat tolerance with strong garden performance in containers or landscapes. Peak availability weeks 45-15.

MARSHMALLOW APPLEBLOSSOM ^{PPAF}

Soft baby-pink flowers.

MARSHMALLOW APRICOT ^{PPAF}

Intense apricot-orange flowers.

MARSHMALLOW ROSE ^{PPAF}

Bright coral-pink flowers.

MARSHMALLOW FLAMINGO RASPBERRY ^{PPAF}

Shell-pink flowers.

MARSHMALLOW PASTEL ^{PPAF}

Soft blush-pink flowers.

MARSHMALLOW RED ^{PPAF}

Bright brick-red flowers, slightly more vigorous.

MARSHMALLOW Appleblossom ^{PPAF}

MARSHMALLOW Apricot ^{PPAF}

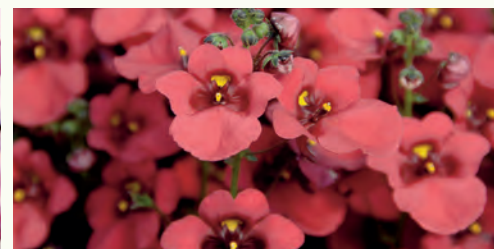

MARSHMALLOW Rose ^{PPAF}

MARSHMALLOW Flamingo Raspberry ^{PPAF}

MARSHMALLOW Pastel ^{PPAF}

MARSHMALLOW Red ^{PPAF}

seasonal product availability

Our goal is to develop programs filled with products that are profitable for our customers and easy to adopt. Many of our products are available during a limited season—we work with many of the best mother stock suppliers in the industry to assure that we receive the highest quality cuttings. We have listed peak ship weeks as a guide to the time when our stock supply is best. However, if your production needs demand product outside our listed seasons, please don't hesitate to call or email our customer service department and discuss your production needs, and we will attempt to facilitate a product availability that works for you. We're always looking for new products and programs that will help our customers grow their business, so please give us every opportunity to make that happen.
