'Cabernet Franc'

*Grape Expectations!
World's First Dwarf Grape*

pixie™
GRAPES

PIXIE is the world's first line of dwarf grapevines. These small but precocious plants produce dozens of miniature grape clusters. Easy to maintain both indoors and out. Perfect for the urban patio vineyard!

'Cabernet Franc'

Vitis vinifera Pixie Grapes 'Cabernet Franc'
CPBRAE, USPP 'VDG002'

Dating back to the end of the 18th century, this is one of the major black grapes in the world. This diminutive mutation of its parent has thinner skin and lower acidity than Cabernet Sauvignon making for a tasty patio treat! Full grown at 18" to 24" tall. Non-GMO/GEO.

Care Instructions

Grow in a 6" to 8" container or in the ground. **Light:** Full sun. **Water:** Keep moderately moist. **Fertilizer:** Feed three times per growing season with any all-purpose organic food. Stop fertilizing mid-summer to slow plant growth and ripen fruit. **Soil:** Loose, well draining organic soil. **Support:** Vines should be trellised for support. **Winter:** In Zone 5 and colder, keep plants in a cool protected location for winter months. Plants in the ground are hardy to Zone 3. **Pruning:** Prune during late winter prior to spring growth

'Pinot Meunier Purple'

Vitis vinifera Pixie Grapes 'Pinot Meunier Purple'
CPBRAE, USPP 'VDG004'

Expect to be amazed! These cutting-edge plants are "mini-me" versions of the dark-berried grape variety most famously used making Champagne. Although a workhorse in contributing fruity aromas to wines, you'll relish the sweet, few-seeded grapes fresh off the vine! Full grown at 18" to 24" tall. Non-GMO/GEO.

Care Instructions

'Pinot Meunier White'

Vitis vinifera Pixie Grapes 'Pinot Meunier White'
CPBRAE, USPP 'VDG003'

What's more amazing than an itty-bitty Pinot Meunier grapevine?

It's this white version producing dozens of yellow, sweet grape clusters! Few seeds and hardy plants add up to a patio treat that can't be beat. Full grown at 18" to 24" tall. Non-GMO/GEO.

Care Instructions

Grow in a 6" to 8" container or in the ground. **Light:** Full sun. **Water:** Keep moderately moist. **Fertilizer:** Feed three times per growing season with any all-purpose organic food. 'Riesling'

Vitis vinifera Pixie Grapes 'Riesling'
CPBRA, USPP 'VDG001'

A light-skinned, aromatic grape from Germany, Riesling is touted to be the world's finest white-wine grape variety. This "honey, I shrunk the grapevine" version will fill a patio container with copious clusters of sweet, white grapes on compact, light-green leafy plants.

Full grown at 18" to 24" tall. Non-GMO/GEO.

Care Instructions
