## Great things come in small packages.

Introducing BUZZ™  
Buddleja, an exciting  
series of dwarf Butterfly  
Bush varieties. At one-  
third the size of standard  
varieties, BUZZ display  
restrained yet robust  
growth, but maintain  
the elegance and large,  
shapely flowers of  
the standard types.

BUTTERFLY BUSH

*From left: BUZZ Buddleja Ivory, Magenta, Pink Purple, Violet, Violet Blue*

The new BUZZ Buddleja series is a superb performer for both grower and gardener. Bred to be compact – one-third the size of standard Buddleja – these varieties ship well and are excellent in large containers or mixed pots. They flower quickly from liners in small pots, which makes for a quick turn and increased profits.

BUZZ varieties have full-sized, graceful, tapering flower spikes maintaining the elegance other dwarf varieties lose. Wonderful for summer production – ideal for gallon pots in late-summer and autumn sales. Hardy Zones 5-11.

**BUZZ BUDDLEJA IVORY** PPAF  
Creamy-white flower spikes.

**BUZZ BUDDLEJA MAGENTA** PPAF  
Intense magenta flower spikes – more vigorous than others in series.

**BUZZ BUDDLEJA PINK PURPLE** PPAF  
Luscious deep-purple flower spikes.

**BUZZ BUDDLEJA VIOLET** PPAF  
Rich lavender flower spikes.

**BUZZ BUDDLEJA VIOLET BLUE** PPAF  
Cool sky-blue flowers.

**POT SIZE/CROP TIMES:**

5-6"	6-8 weeks
1 gallon	8-10 weeks
2 gallon	12-16 weeks

**PLANTS PER POT:** 1 plant per pot.

**PLANTING:** Pot March to July depending on desired finished product size and finishing date. Soft pinch 8-10 days after potting recommended.

**SOIL MIX:** Well-drained peatlite mix or high-quality nursery mix, neutral pH, good water and nutrient retention.

**TEMPERATURE:** Start early crops in greenhouse. Outdoor cultivation in full sun recommended once danger of frost has passed.

**LIGHT:** Best when grown under full sun conditions. Flower initiation under long days (14h+).

**PLANT GROWTH REGULATORS:** BUZZ varieties are naturally compact and bushy, hence do not require PGR treatments when grown under outdoor conditions.
