

[forecasts]
2008-2009

[73° and sunny]

Clear skies and warm temperatures by day, afternoons and nights cooled by light ocean breezes. The highest light levels in North America. It's another perfect day in Vista, California. And the ideal climate in which to grow young plants —and your profits.

Established in 1987, Plug Connection was the West Coast's first ornamental young plant specialist. Today we are one of the largest plug producers in the country. Whatever your company's size or location, we have the products, programs, services, and flexibility that can increase your profits.

350,000 sq. ft. of greenhouse space. Our finishing houses (stages three and four) have retractable roofs that dissipate heat and humidity during the day.

Shorter finish times, faster turns, year-round availability. Toned and hardened by the sun and the cool breezes blowing off the Pacific, our plugs are exceptionally compact and vigorous. Our live online availability updates every 15 minutes. Go to www.plugconnection.com/availability/index.html

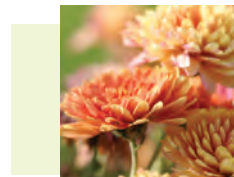

TAKE A TOUR AND SEE THE SIGHTS

Visitors are always welcome at Plug Connection. Located in the coastal foothills of the Santa Ana Mountains, our facilities are just seven miles from the ocean, and forty miles north of San Diego. Call 760.631.0992 or email info@plugconnection.com to schedule a visit, and for information about places to stay and things to do and see.

CUSTOM-MADE SOLUTIONS

All companies claim to have excellent customer service and support. We actually do. Along with attention to detail, a positive attitude, and the ability to think outside the box, we listen to and learn from our customers. From order summaries to details about our newest young plants and programs, our customer service team provides the answers—sometimes before you ask the questions. With our low minimums for custom growing and more than 3,000 varieties, you can create programs that will take your business to the next level.

OUR PRODUCTS

Chrysanthemums

Poinsettias

**Organiks™
Retail Ready Program**

[a tasty trend]

Americans spent \$16.9 billion on organic foods in 2006—a whopping 22.1% increase from 2005, and easily exceeding forecasts of \$16 billion.* Organic foods now represent approximately 3% of all food and beverage sales.

Get your slice of the healthy lifestyle pie with our new certified organic herbs and vegetables program. We have more than three hundred varieties, including many popular heirlooms.

*U.S. Organic Trade Association 2007 Manufacturer Survey

Get with the program. Our organic experts are here to help you with the ins and outs of growing and selling certified organic produce. Growers Mike Guy, Greg Opgenorth, Laurie Nack, and Director of New Product Development Juan St. Amant are available to guide you. Call 760.631.0992 or email info@plugconnection.com
